Nursing and Allied Health Department

The Nursing & Allied Health Department provides accessible quality education with a focus on health careers and training to enhance health education. The goal of the department is to prepare competent, caring health care providers. We offer Nursing & Allied Health programs, short term health care courses and workshops. The Practical Nursing Program requires acceptance to the class based on specific requirements. Our faculty and advisors are prepared and willing to assist you achieve your educational goals for a career in health care.

The GCC Advantage
Nursing & Allied Health courses at Guam Community College provides students with the curriculum and instruction needed to fulfill the requirements for an Associate degree in Medical Assisting or Practical Nursing as well as a Certificate in Medical Assisting, Industry Certificates in Certified Nursing Assistant or Emergency Medical Technician. Our expert faculty in the field provide students with the skills and critical thinking requirements to prepare for local and national certifications aligned with their intended health career goal.
