

DEGREE

Associate of Arts in Liberal Studies - Business Track

Total Credit Hours: 62-65

About Associate of Arts in Liberal Studies - Business Track

Liberal Studies students will explore courses in a variety of disciplines and receive the critical thinking, communication, and problem-solving skills that will prepare them for an array of future careers and life-long learning. Guided by advisors and educators, students will carve out a path that is right for them, and must choose one (1) of four (4) tracks of specialization. Students in the program will also complete various general education requirements for transfer to a four-year program.

Program Total		62-65

The categories A, B, C, D, E, and F above correspond to the following UOG gen ed categories:

Category A: Human Systems and Organizations (Tier II)

Category B: Core Foundation (Tier I)
Category C: Core Foundation (Tier I)
Category D: Cultural Perspectives (Tier II)

Category E: Uniquely UOG (Tier II)

Category F: Creative and Expressive Arts (Tier II)

Note on Major Requirements: Where more than one option is presented, choose one course from each category. Choose courses not previously taken for General Education or another category. If you are planning to transfer, you should choose courses that align with the general education requirements of your desired major at a four-year institution. Consult with your advisor to create your educational plan.

2023-2024 College Catalog

GENERAL REQUIREMENTS FOR ASSOCIATE DEGREE

Recognizing the necessity for students to succeed in the complex and rapidly changing workplace, Guam Community College offers a general education curriculum that introduces students to major areas of knowledge and methods of inquiry. All degree programs require an interdisciplinary general education component that promotes the development of intellectual skills that enable students to become effective learners and informed citizens. Critical thinking, the use of language and computation, appropriate social skills, global awareness and respect for diverse opinions are among the learning outcomes provided in the general education requirements of each program.

Guam Community College believes that general education provides the academic foundation necessary for students to achieve their life goals. General education is intended to offer students a breadth of quality student learning experiences, encourage their respect for cultural heritage, promote their ethical and responsible social behavior and facilitate their life-long learning.

The General Education program strives to foster student learning and skill development in civic engagement, critical thinking, understanding of the relationship between the individual and society, information literacy, oral communication, quantitative reasoning, and written communication.

Published on GUAM COMMUNITY COLLEGE (https://guamcc.edu)

Guam Community College believes that high quality general education opportunities for all citizens are necessary for democratic principles and practices to exist and for a sound economy to flourish. The College continually scrutinizes the general education curriculum in order to assure that all degrees and certificates granted by the College support this vision of general education and that it serves as a means to inspire hope, opportunity and responsibility in all its constituencies.

Requirements for General Education follow the options described below. Students declared prior to fall 2010 will follow the requirements indicated in the applicable catalog in which they first declared their major program at the College.

Notes on General Education requirements

Students are advised to check the requirements for their specific programs before taking General Education courses.

Courses chosen to meet the general education requirements may not be used to meet the Major Requirements of a student's specific degree program.

The list contains courses with pre-requisites, so students should make their choices carefully and thoughtfully. Students may consult a counselor or an academic advisor for guidance in choosing any of the course options listed.

IMPORTANT NOTE: Some programs require different levels of coursework to meet Coneral Education

IMPORTANT NOTE : Some programs	•	o meet General Education
requirements, please review the individ	dual programs for more information.

Category F: Creative and Expressive Arts (Tier II)

Note on Major Requirements: Where more than one option is presented, choose one course from each category. Choose courses not previously taken for General Education or another category. If you are planning to transfer,

you should choose courses that align with the general education requirements of your desired major at a four-year institution. Consult with your advisor to create your educational plan.

Student Learning Outcomes

Program Student Learning Outcomes (SLOs):

Upon successful completion of the AA in Liberal Studies program, students will be able to:

- 1. Plan for an advanced program of study in a particular field or to achieve a career goal, based on interests, skills, and an awareness of different disciplines.
- 2. Examine local, regional, and global issues from multiple perspectives.
- 3. Internalize their role as a global citizen in a local and/or regional context.

Associate of Science in Visual Communications [1]

The Associate of Science in Visual Communications focuses on the creative elements in the world of technology. Three major areas are addressed in this program: print, video and interactive media. Although the areas of study are different in delivery, they incorporate skills that are common to all. The curriculum is geared towards training students to enter the professional industry.

[2]

Associate of Science in Supervision & Management [2]

The Supervision and Management program prepares students for entry-level positions and employment in the field of supervision and management. The program is designed for students who want to learn, update and augment existing knowledge and skills and/or acquire cutting-edge technical and managerial skills; it is also designed for current and future leaders, supervisors, and managers who desire the latest skills to be effective and productive in their respective fields.
